二、H9 Plus Construction

三、Carplay/Android Auto Instruction

(1) H13 Pro Start Window

(2) H9 Pro Start Window

A: Screen projection mode: When not connected to CarPlay/Android Auto, clicking on CarPlay/Android Auto will prompt you to connect (click again to exit). If already connected, it will switch to the CarPlay/Android Auto interface.

B: Screen Mirroring mode: When not connected to AirPlay/Miracast, clicking on AirPlay/Miracast (H13 Pro: Setting-System-Link/Phone Link-Back to Start Home) will prompt you to connect (click again to exit). If already connected, it will switch to the AirPlay/Miracast interface. (The white box indicates whether the current mode is AirPlay or Miracast, and the startup mode is set to AirPlay.)

Note: If unable to connect to CarPlay

Please forget the connected Bluetooth and try to reconnect.

Method 1: If the connection is still unsuccessful, try restarting the phone and the device, wait for 15 seconds, and then restart and try again.

Method 2: If only the pop-up windows "Bluetooth Pairing Request" and "Allow Contacts and Favorites Sync" appear when connecting, but the pop-up window "Use CarPlay with 'CarPlay'" does not appear, please check whether the phone's "Settings > General > CarPlay" has a connected CarPlay, if yes, delete it and try again.

Method 3: If still unable to connect, please contact us online;

Note: If unable to connect to Android Auto

(Update the Android Auto program on your phone and turn on wireless connection in the Auto settings)

Method 1: Disconnect the Bluetooth connection of other devices on the phone, ignore the Bluetooth of the device, and try to connect again.

Method 2: Restart the device and try to reconnect the Bluetooth of the phone.

Method 3: Restart the phone and turn off the device for 15 seconds, then try to connect the Bluetooth again.

Pls search for "Android Auto" on the phone (If the above methods still cannot connect), select "Settings > Android Auto > Connection Help", and follow the prompts in the connection help to operate. Then restart the device (turn it off for 10 seconds).

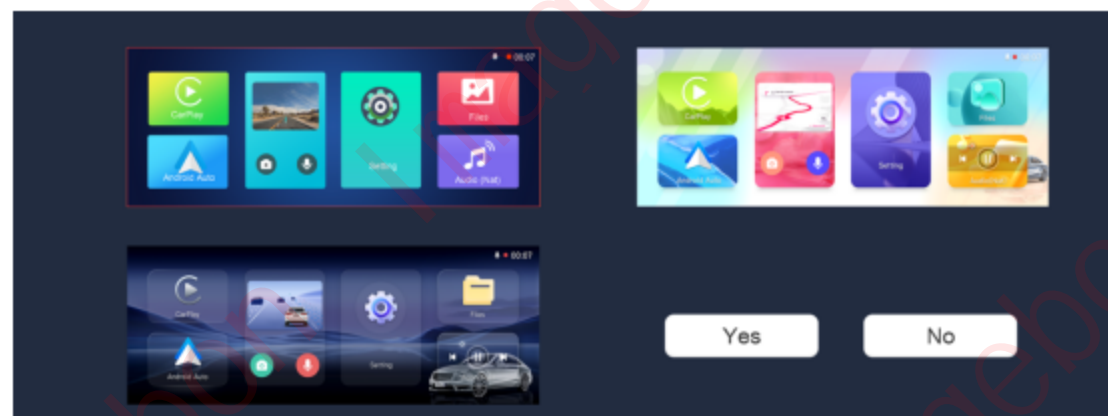

Themes:

Please tap “Setting-System”

- ① Theme: There are 3 themes for your choice.
- ② Screen Display: Freely switch the full screen mode to split-screen mode.
- ③ Link/Phone Link: Switch Carplay/Android Auto mode to Airplay/Miracast mode.
- ④ Driving habit selection: Freely switch the position of the front camera in split-screen mode according to your driving habits.

(1) H13 Pro Theme UI

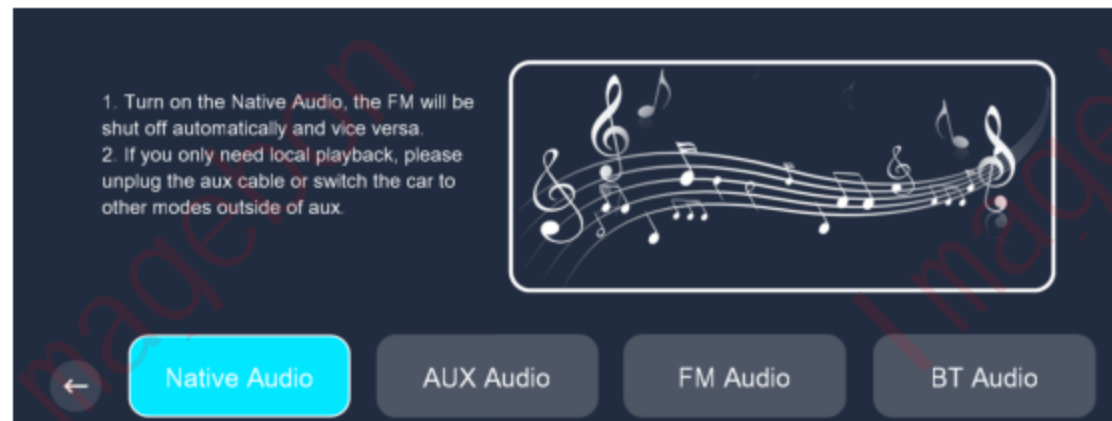

(2) H9 Plus Theme UI

1) Native Audio:

- ① Turn on the Native Audio, the FM will be shut off automatically and vice versa.
- ② Pls shut off the Native Audio if you wanna play audio through AUX out only and vice versa.

2) AUX Audio:

- ① Switch the car audio system input mode to AUX mode.
- ② AUX outputs all the time, plug and play. Default FM and Native Speaker will be turned off automatically when AUX mode is ON.

3) FM Audio:

- ① Turn on the radio function of the original car and choose the channel you like.
- ② Turn on FM and tune to the same channel (Can be added to most 3 Favorites). The device will sound through the horn of the original car.

4) Bluetooth Audio:

- ① For Carplay/Android Auto use only.
- ② Please use your phone to directly connect to the original car's bluetooth.

Matters needing attention

- ① Please use the product at natural temperature and avoid working in temperature ranges that are not suitable for human adaptation.
- ② Please use the product in environments with appropriate humidity for human habitation. Do not expose the product to damp environments, as it is not waterproof.
- ③ Do not attempt to open or repair the product or any of its components. If the product or any of its accessories have malfunctions, please take them to a professional repair center.
- ④ Do not use harsh chemicals, solvents, or cleaning agents to clean the product. Please use a slightly damp soft cloth to wipe the product.
- ⑤ Avoid using the product in environments with high dust density to prevent the lens and other components from being contaminated by dust and affecting the recording quality.
- ⑥ Please pay attention to environmental protection and do not dispose of the product indiscriminately. Do not throw the product into fire to avoid explosions.
- ⑦ If the dashcam has any malfunctions, press the reset button at the back of the device to reboot it.
- ⑧ Do not plug or unplug the rear camera during use.
- ⑨ If the displayed image is inverted or any other questions, please contact us online in time .
