

Mechanical Keyboard Keycap Set

Complete Product Manual & Compatibility Guide

1. Product Overview

This is a premium, complete set of aftermarket keycaps designed for mechanical keyboards. The set includes **130 keys** and is manufactured using advanced **double-shot molding** technology with durable **PBT material**, ensuring long-lasting texture and resistance to shine. The key legends are transparent for optimal backlight (RGB) compatibility.

 **Important Notice:** This product includes **ONLY the keycaps**. The mechanical keyboard itself is **NOT included** in the package.

2. Key Specifications

Height Profiles (Comparison)

Profile	Row 4 (R4)	Row 3 (R3)	Row 2 (R2)	Row 1 (R1)	Characteristics
OEM	9.56mm	10.5mm	8.3mm	6.9mm / 7.1mm	Standard sculpted profile, most common.
CHERRY	9.81mm	9.81mm	7.85mm	7.22mm / 8.59mm	Lower profile sculpted, Cherry original.
XDA / MOA	9.56mm	10.5mm	9.56mm	9.56mm	Uniform, flat-top profile. All rows same height.

Key Size Reference: 1U = The standard width of one alphanumeric key (e.g., the "A" key). Keycap widths are multiples of this unit (e.g., 2U, 6.25U).

Space Bar: The included space bar is **6.25U** in length. Major keys like Space, Enter, Shift, etc., support the **satellite axis (stabilizer) structure** standard in mechanical keyboards.

3. Keyboard Compatibility

Fully Compatible Layouts

This keycap set is designed for mechanical keyboards with a standard **6.25U space bar**. It is suitable for the vast majority of popular layouts:

108-key	104-key	100-key	98-key	96-key
87-key	84-key	82-key	75-key	68-key
64-key	61-key			

Switch Compatibility

The keycaps are compatible with all standard **Cherry MX-style mechanical switches** (including clones from Gateron, Kailh, Outemu, JWK, etc.).

Not Compatible: This set is **NOT** compatible with low-profile, optical, or proprietary "short" switches (e.g., some laptop-style mechanical switches).

Critical Compatibility Note

 **Verify Before Purchase:** This set is generally **NOT compatible** with keyboards requiring non-standard space bars, such as:

- **7U Space Bar** (common in some compact 65% or specific layouts).
- **6.5U Space Bar** (less common).
- Keyboards with unusual bottom row layouts.

If you are unsure about your keyboard's layout, please contact customer service with a clear photo of your keyboard for confirmation before ordering.

4. Key Layout & Contents

The 130-key set provides extensive coverage for various layouts and includes:

- **Full Alphanumeric Set:** Standard QWERTY layout with primary and secondary legends.
- **Function Row:** Keys F1 through F12.
- **Number Pad:** Full numpad with Num Lock, arithmetic operators (/, *, -, +), and Enter.
- **Navigation & Editing Cluster:** Insert, Home, Page Up, Delete, End, Page Down, and dedicated Arrow Keys.
- **Modifier Keys:** Multiple Ctrl, Alt (Option), Fn, Windows (Win), and Shift keys in different sizes.
- **Specialty Keys:** Esc, Tab, Caps Lock, Enter, Backspace, and the `~` key.

The set allows for customization and replacement of nearly every key on compatible keyboards.

5. Packaging

The complete keycap set is securely packaged in a sealed **OPP plastic bag** to prevent damage and loss during transportation.

6. Product Summary

Quantity	130 Keycaps
Primary Profile	OEM Height
Material	PBT Plastic
Manufacturing Process	Double-shot Molding
Legends	Transparent (for backlighting/RGB)
Space Bar Size	6.25U (with stabilizer mounts)
Package Contents	Keycaps only. Keyboard is NOT included.
Primary Use	For most standard-layout mechanical keyboards with Cherry MX-style switches.
