

Keyboard User Manual

Warning & Safety Information

⚠️WARNING: Please mind potential fire risk and strictly follow the instruction manual for charging and storage.

II. Product Name

Keyboard

III. Brand Name & Model

Brand Name: SayoDevice

Model: O3C

IV. Instructions for Use

- 1. Plug the USB connector into your computer; the keyboard is ready for use once recognized.
- 2. Press keys to input characters or execute functions.
- 3. Some keyboards feature backlight adjustment keys to brighten or dim the lighting.
- 4. All settings and firmware updates are available on the official website: Sayodevice.com

V. Precautions

- 1. Prevent liquids from entering the keyboard interior.
- 2. Keep the desktop clean during use to avoid dust accumulation.
- 3. Avoid prolonged continuous use; take appropriate breaks.

VI. Feature Overview

- 1. Customizable Key Mapping: Assign custom functions to each key according to your needs.
- 2. Customizable Backlighting: Multiple lighting modes and selectable backlight colors.

VII. Frequently Asked Questions (FAQs)

- 1. Keyboard shows no response or fails to enable high-speed mode: Adjust the USB polling rate to 1000 Hz via the keyboard menu, then connect to the official website to update to the latest beta version.
- 2. A key is unresponsive or triggers repeatedly: Navigate to Keyboard Menu → Keys → Calibration → All, then press each key sequentially from left to right.
- 3. Backlight does not illuminate: Visit the official website to verify whether the backlight function is enabled.

VIII. After-Sales Service

- 1. 90-day limited warranty; free repair for non-man-made defects.
