This form is prepared in accordance with SJ/T11364.  
O: Indicates that the content of the hazardous substance in all homogeneous materials of the component is below the limit specified in GB/T 26572.  
X: It means that the content of the hazardous substance in at least one homogeneous material of the component exceeds the limit specified in GB/T 26572.  
(The hazardous substances contained in some components of the product cannot be replaced under the current international technical level. The marked environmental protection service life of the product refers to the safe service life that the hazardous substances or elements contained in the product will not leak under normal service conditions.) (this table indicates that there are these hazardous substances in our products, and the built-in products do not include all the above components)

Guarantee Card

Guarantee Clause

1. Users purchase the product with a manual and warranty card. After filling in, please keep it properly for replacement voucher.
2. The product is guaranteed for one year.
3. The above does not belong to the scope of warranty:
  - 1). The warranty card is not signed or sealed by the sales company;
  - 2). Damaged by man-made or irresistible factors;
  - 3). Products are normally worn out.
