Instructions for Use

1. Preparation: Remove all protective films from the device.
2. Charging Style: Connect the provided USB cable to a certified 5V power adapter.
3. Linked wire style: Correctly connect the wires
4. Modes: Short press the button to cycle through functions.
5. Do not use the power supply beyond the specified range(AC85-265V, 50-60Hz)
6. Cut off the power before installation to prevent electric shock
7. Avoid scratching the lamp and wires during installation.

Detailed steps

1. Remove all accessories from the box. Measure the distance between the hanging plate hole and the drilling hole, and drill the hole.
2. Put the expansion screws into the holes on the wall.
3. Install the hanging plate and put the screws to fix it on the wall.
4. Please cut off the power before connecting the wires, and connect the L(Live Wire) / N (Zero Wire) respectively. The two red wires must be connected correctly (the side marked with KCY should be on the same face).
5. Lock the lamp body with screws
