Product Model: HB3-1, MV29, MV29CT

This product complies with the essential health and safety requirements set out in Regulation (EU) 2016/425 Personal Protective Equipment. And the helmet meets requirements of the Harmonized Standards EN 1078:2012+A1:2012.

Manufacturer: Zhao Qing Bo Han Sports Company Ltd.

Address: No. 2-1, KangTai Street, High Tech Zone, Zhaoqing City, Guangdong, China E-mail: 498273070@qq.com

Notified Body responsible for EU Type examination: TÜV Rheinland LGA Products GmbH Tillystraße 2 - 90431 Nürnberg, Germany(Notified Body: 0197)

Safety Instructions:

- The helmet can only protect if it fits well and that the buyers should try different sizes and choose the size which feels secure and comfortable on the head,
- The helmet should be adjusted to fit the user, e.g. the straps positioned so that they do not cover the ears, the buckle positioned away from the jawbone and the straps and buckle adjusted to be both comfortable and firm.
- The helmet should be positioned on the head to ensure the intended protection is provided(e.g. hat it should be placed so as to protect the forehead and not to be pushed too far over back of the head).
- A helmet cannot always protect against injury.
- A helmet subjected to severe impact should be discarded and destroyed.
- Please do not modify or remove any of the original component parts of the helmet.-The helmet should not be adapted for the purpose of fitting accessories in a way not recommended by the manufacturer.

WARNING!

- This helmet should not be used by children while climbing or doing other activities when there is a risk of strangulation/ hanging if the child get strapped with the helmet.

Complies with U.S. CPSC Safety Standard for Bicycle Helmets for Persons Age 5 and Older.

Storage, Cleaning, and Maintenance:

- Allow your helmet to air dry after each use.
- Store your helmet in a cool, dry place. High temperatures, starting at 60, can seriously damage the helmet. Uneven surfaces and blistering are signs of such damage. Do not store the helmet behind glass, such as in a car, or near heating sources.
- Clean your helmet only with lukewarm water, milk soap, and a soft cloth. First, remove the comfort padding, then gently wipe the interior and exterior surfaces of the helmet with the damp cloth.
- The comfort padding can be hand washed using lukewarm water and milk soap. After washing, allow the padding to air dry.
- **Maximum number of cleaning cycles before disposal: 5**

-Caution: Modifications to the helmet, such as applying paints or stickers, removing internal labels (including warning labels and identification codes), or using aggressive cleaning agents, chemicals, or solvents, may impair the helmet's protective effectiveness.

Helmet Fitting:

- To be effective, a helmet must fit and be worn correctly.
- To check for correct fit, place helmet on head and make any adjustments indicated. Securely fasten retention system, Grasp the helmet and try to rotate it to the front and rear. A correctly fitted helmet should be comfortable and should not move forward to obscure vision or rearward to expose the forehead. Unless this helmet is fitted properly, and worn properly, it cannot protect properly. Follow these Five simple steps to learn how to properly fit and wear your helmet. You will need a mirror.
- Always wear a helmet low in the front to protect your forehead. See Figure 3 below for the proper way to fit a helmet
- The chin strap is properly adjusted when it fits snugly yet comfortably in the closed position, and you feel slight pressure when opening your mouth. The strap buckle must not rest on your chin or jawbone.
- If the chin strap is too loose, it can be tightened by pulling strap through the loop at the buckle. If it is too tight, it can be loosened with the same loop.
- Too loose end of the strap can be secured using the O-ring and chin padding.

Caution: Please note that the buckle must be fastened before each ride!

Caution! If you are unable to adjust the size of the helmet so that it can only be moved slightly forward or backward with the straps closed, do not use it! Exchange the helmet for a smaller or different model.

Accessories:

Chin guard: some of helmets feature a removable chin guard. To detach it, use the snap buttons on the outer side of the helmet or unlock the slider inside the helmet.

Helmet storage bag: can directly store helmets for easy carrying.

Intended use/application: This product is designed to protect against head impacts during cycling. It may not be used for other sports or for motorcycling.

Obsolescence: A helmet must be replaced if it no longer fits properly or at least, **3 years** after the date of manufacture, even if no damage is visible. Your helmet must be regularly inspected for any visible defects. A helmet subjected to a severe impact or deep scratch must be discarded and destroyed, as if it loses its protective function.
